

GME GX600

compact waterproof marine VHF radio

- Simple to operate, reliable, rugged and waterproof
- Compact - total depth only 77mm, and flush mounted depth only 47mm
- Waterproof from back, so suitable for centre console installation
- Two quick access keys for frequently used channels
- Programmable channel scanning, and dual watch
- Channel Up / Down keys on microphone handset
- Starts up on last used channel, so unaffected by engine starting voltage dip
- Large, easily read display and keys, which are back-lit
- Optional flush mount kits - with plastic escutcheon or rear mount S/S hardware
